Let VMAP for Moms+ Buy You Lunch!

We bring lunch, you bring your team!

VMAP for Moms+ is a state-funded program available at **no cost** to Virginia prescribing clinicians who treat pregnant or postpartum people. We will come to your practice (or meet with you virtually!) and share the following with your providers:

- How to utilize the VMAP for Moms+ Line to support your pregnant and postpartum patients
- VMAP for Moms+ expert-led continuing medical education opportunities on perinatal mental health

Optional: VMAP for Moms+ can include additional education for your team on specific mental health issues that you see at your practice.
