

Let APAL Buy You Lunch!

We bring lunch, you bring your team!

The **Adult Psychiatric Access Line (APAL)** is a free, statewide program for Virginia primary care clinicians (PCCs) who care for adult patients with behavioral health concerns.

We can come to your practice—or meet with you virtually—and provide the following for your team:

- ▶ Guidance on how to use APAL to access **psychiatric consultation** and **care navigation** support for your patients
- ▶ Information on **low-cost CME opportunities** in adult behavioral health
